CONSULTATIONS

£50

At Amethyst Clinic, our 45-minute consultation includes an Observ Skin Analysis and is designed to help you achieve your aesthetic and skincare goals. We will discuss your concerns, explore your treatment options, and create a bespoke treatment plan tailored to your needs.

We will explain any recommended treatments, expected results, risks, and costs, ensuring you have all the information needed to make an informed decision.

The £50 consultation fee is redeemable against treatments booked and paid for on the day of your consultation, or against clinic products purchased with a minimum spend of £150.

ANTI-WRINKLE INJECTIONS

Anti-wrinkle injections, also known as botulinum toxin injections, are a popular and effective treatment for reducing the appearance of wrinkles and fine lines.

This treatment is particularly effective for addressing frown lines, forehead lines, crow's feet, gummy smiles, dimpled chins, downturned corners of the mouth, and slimming the jawline.

One of the key benefits of anti-wrinkle injections is their minimally invasive nature. The injections are administered with a fine needle and are relatively painless. Additionally, there is little to no downtime associated with the treatment, meaning you can return to most of your daily activities afterwards, including work!

FACIAL FILLERS

Our premium dermal filler injections are designed to rejuvenate and enhance your natural beauty. Dermal fillers, specifically hyaluronic acid-based ones, are renowned for their ability to volumise fine lines and areas affected by volume loss, a common occurrence during the natural ageing process.

The versatility of dermal fillers allows us to address various concerns and areas of the face, including cheeks, jawline, marionette lines, nasolabial folds, temples, tear troughs, brow lift, forehead, and fine lines. Whether you desire subtle enhancement or more noticeable rejuvenation.

DERMAL FILLER PACKAGES

Dermal fillers are injectable treatments that restore volume, smooth wrinkles, and enhance facial contours. Using premium dermal fillers made from hyaluronic acid, we employ a full-face transformative approach for optimal results. This method addresses the entire face, ensuring harmonious and balanced rejuvenation. By treating multiple areas such as the cheeks, lips, jawline, and under-eye regions, we create a cohesive, natural-looking enhancement that complements each facial feature.

Our approach aims to restore youthful contours and smoothness, offering a refreshed appearance. The use of high-quality fillers ensures longer-lasting results and a comfortable experience. Whether seeking subtle enhancements or more noticeable changes, our skilled practitioners tailor each treatment to your individual needs, ensuring the best possible outcome with natural-looking results.

POLYNUCLEOTIDES

Polynucleotides are an innovative injectable treatment that harnesses the regenerative properties of nucleic acids to rejuvenate the skin from within. Derived from purified trout DNA, these biocompatible molecules stimulate cellular repair, improving skin texture, elasticity, and overall radiance.

At Amethyst Clinic, polynucleotides can be used to treat the delicate eye area, face, neck, décolleté, and body. They are ideal for improving fine lines, skin laxity, tone, and texture while promoting natural skin regeneration. For optimal results, we recommend a course of three treatments, spaced 3–4 weeks apart.

PHILART - *SINGLE TREATMENT*	**£245**
PHILART NEXT - *SINGLE TREATMENT*	**£275**

BIOSIMULATORS

Biostimulators such as Lenisna and Juvelook stimulate natural collagen production to improve skin texture, firmness, and elasticity. These advanced treatments provide gradual, natural-looking rejuvenation and are ideal for concerns including fine lines, skin laxity, enlarged pores, and acne scarring. Discounted courses available, ask for further details.

HArmonyCA™

HArmonyCa™ is a revolutionary dual-effect hybrid injectable treatment containing both hyaluronic acid (HA) and calcium hydroxyapatite (CaHA) to provide the combined benefits of lifting and volumisation as well as lasting collagen production. HArmonyCa™ adds subtle volume to the cheek and jaw area, effectively lifting jowls and softening cheek lines. This innovative treatment delivers long-lasting results, with continued improvements often visible even a year after the procedure, thanks to the continued collagen stimulation. HArmonyCa™ offers minimal downtime, allowing you to resume your daily activities shortly after treatment.

SKIN BOOSTERS

Experience the rejuvenating benefits of skin boosters, a revolutionary injectable treatment available at Amethyst Clinic. Skin boosters are unique hyaluronic acid-based product that works by deeply hydrating the skin and stimulating collagen and elastin production, resulting in improved skin texture, elasticity, and overall radiance.

Unlike traditional dermal fillers, skin booster's spread evenly beneath the skin, providing hydration and structural support across the full treated area. Areas that can be injected include the full face, neck and body.

For maximum collagen stimulation and skin rejuvenation we recommend a course of 2 treatments, spaced 3-4 weeks apart. We offer a variety of skin boosters on our treatment menu and your product choice can be discussed on the day of treatment.

DERMAPLANING

Dermaplaning is a non-invasive exfoliation treatment that effectively removes dead skin cells and peach fuzz hair, leaving your skin smooth, radiant, and glowing. During the treatment, a sterile blade gently scrapes away the top layer of dull, damaged skin, revealing a fresh, luminous complexion underneath.

Unlike other exfoliation methods, dermaplaning requires no downtime, allowing you to immediately enjoy your radiant skin. Additionally, the medical grade products applied post-dermaplaning penetrate deeper and more effectively into the skin, enhancing their efficacy and leaving your skin visibly rejuvenated.

XCELLARIS MICRONEEDLING

Xcellaris Pro Twist Microneedling, also known as collagen induction therapy, involves the use of a precision microneedling device to create controlled
micro-injuries in the skin, stimulating collagen and elastin production.

Prior to treatment, LMX numbing cream is applied for a pain-free experience. Xcellaris microneedling offers a myriad of benefits, including improved fine lines, wrinkles, acne scarring, and pigmentation irregularities. It's not just limited to facial treatments; Xcellaris microneedling can also target body concerns such as stretch marks. For optimal results, we recommend a course of 3-6 treatments, spaced 4-6 weeks apart.

CRYOPEN

Discover the cutting-edge solution for lesion removal at Amethyst Clinic with our Cryopen. Our advanced techniques effectively target and permanently remove various skin concerns, including benign moles, skin tags, warts, verruca's, pigmentation, cherry angiomas, and milia.

Using a precise cold spray, the treatment lasts only 5-10 seconds, providing a quick and efficient procedure. Cryotherapy is safe and highly effective, with no need for stitches or downtime. Lesions naturally come off over 2-3 weeks post-treatment as part of the body's healing process. With the NHS no longer offering cosmetic lesion removal, Cryotherapy at Amethyst Clinic offers a cost-effective alternative for achieving clear, healthy skin.

IPL ROSACEA / THREAD VEINS TREATMENTS

A targeted IPL treatment designed to reduce facial redness, rosacea and visible thread veins. The light energy is absorbed by the affected blood vessels, helping to safely reduce their appearance and create a calmer, more even skin tone. Ideal for clients whose primary concern is persistent redness or broken capillaries rather than pigmentation or overall skin rejuvenation.

Discounted treatment courses are available following consultation, as multiple treatments are usually recommended for optimal results.

ULTRASOUND BODY CONTOURING

A non-invasive ultrasound cavitation treatment designed to reduce stubborn pockets of localised fat and improve body contours. Using advanced ultrasound technology, the treatment targets unwanted fat cells to help create a slimmer, more sculpted appearance with no downtime. Suitable for the abdomen, hips, upper back (bra line), upper arms, thighs and buttocks, it is ideal for clients who are close to their ideal weight but want to address areas of stubborn fat that are resistant to diet and exercise.

ABDOMEN	**£150**
HIPS	**£150**
ABDOMEN & HIPS	**£200**
UPPER BACK - BRA LINE	**£150**
UPPER ARMS	**£150**
NON-SURGICAL BUTT LIFT	**£150**
THIGH - INNER & OUTER	**£150**

Discounted treatment courses are available following consultation, as the best results are achieved with a course of treatments.

SONOPHORESIS

A non-invasive ultrasound treatment that enhances the absorption of professional skincare ingredients into the skin. Ideal for improving hydration, skin texture and radiance, it helps maximise the benefits of targeted serums while leaving the skin feeling smoother, healthier and more refreshed with no downtime. This can be booked as a standalone treatment or incorporated into other facials where appropriate.

FAT DISSOLVING

Deso fat dissolving injections are a non-surgical solution designed to target and reduce stubborn fat deposits. Utilising advanced deoxycholic acid formulas, these injections break down fat cells, which are then naturally eliminated by the body. Ideal for areas such as the chin, abdomen, thighs, and flanks.

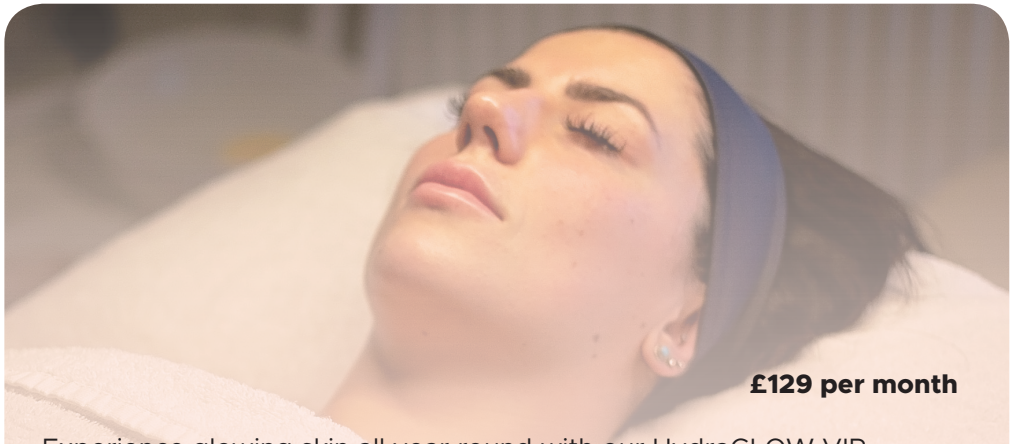

The Deso Face and Deso Body products are safe and effective products which can be tailored to your specific needs for optimal results.
A consultation for this treatment is required.
